

3 New Water Saving Rebate Programs

As drought continues throughout the west, saving water is more important than ever. It not only ensures that our water resources will continue to serve our needs in the future, but also saves you money!

To help you save water outside, Riverside Public Utilities has introduced three new water-saving rebate programs!

Artificial Turf - The Artificial Turf Rebate program is a water conservation incentive offered to Riverside Public Utilities’ residential water customers who replace existing grass areas with water-saving artificial turf.*

Rotating Sprinklers - Replace your standard, pop-up sprinkler spray heads with water-saving rotating sprinkler spray heads. You’ll save water, and get a great rebate!

Waterwise Landscape – This rebate program provides incentives for residential water customers who replace existing lawn areas with water efficient, California friendly plants.*

DO THE TWIST

Starting in November two compact fluorescent light bulbs will be mailed to your home courtesy of Riverside Public Utilities.
